Become a member of our national network of fleet refinishers and gain the quality and assurance of Premium Topcoats, Undercoats and Surface Preparation Products and [Training](#).

A System For Every Need.

GENESIS® 2.8 VOC and 3.5 VOC Acrylic Urethane single-stage two component system ideal for OEM, Fleet, Truck and Special Vehicle finishing.

SUNFIRE® our high quality, high solids two component acrylic urethane system is available in 5.0 VOC, 3.5 VOC and Basecoat/Clearcoat.

ULTRA 7000® System, our quality acrylic urethane product offers thousands of colors in Basecoat/Clearcoat and Single-Stage systems.

Enamels offer a selection of cost-effective, fast-drying, durable finishes with a large selection of intermix and factory packaged colors.

Sherwin-Williams Automotive Finishes ACRYLD® Acrylic Enamel has 50% more durability than conventional synthetic enamels and is an easy-to spray, fast drying acrylic available in thousands of intermix and factory packaged colors.

For low VOC requirements, ACRYLD® HS 3.5 VOC Urethane Enamel provides a hi-gloss, durable finish designed for over-all refinishing.

A Guarantee For Every System

No Paint company backs the results better than we do. Our systems are covered

against peeling, cracking, crazing, extensive loss of gloss, color chalking and moisture blistering. Match the guarantee to the job requirements.
